

# TRAILBLAZER TECHNOLOGIES, LLC™

## LEE WOOLDRIDGE - BSE, BA, MSE

Providing research, analysis, and consulting services to Government and commercial clients for over 30 years. Committed to thinking out of the box and applying multidisciplinary talent to provide innovative solutions. Working at all levels of an enterprise to identify and implement synergistic interventions and tools to optimize both individual and organizational performance while improving both employee and customer satisfaction.

### CAPABILITIES

- Program and Project Management
- Simulation Training Development
- Instructional Analysis and Design
- Human Factors
- Communication Excellence
- Information Facilitator
- Program and Project Management
- Performance Assessment
- Productivity Management
- Instruction and Presentations
- Statistical Design and Analysis
- Documentation
- Enterprise Software
- Performance Assessment

### PHILOSOPHY

*“The common thread running through most of my experience has been the need for my clients to do more with less. As such, I always concentrate my skills and intuitive insight on each client’s greatest technical and human challenges to tailor an effective solution using the most sensible, effective and efficient approach fitting the needs of my customer. As a result of my customer service-oriented approach to consulting I have established long term relationships with several of my clients, a few lasting well over a decade.”*
